TOEFL Speaking Samples

The following are some sample responses to the TOEFL Speaking questions:

Task 1: Independent Speaking

Question: Describe a time when you had to overcome a challenge.

Answer: One time when I had to overcome a challenge was when I was trying to learn how to ride a bike. I had never ridden a bike before, and I was afraid of falling. But I knew that I wanted to learn, so I kept practicing. I fell down a lot, but I didn't give up. Eventually, I was able to ride the bike all by myself. It was a great feeling, and I was so proud of myself for not giving up.

Task 2: Integrated Speaking

Question: Summarize the following reading passage.

Reading passage: The internet has revolutionized the way we communicate. In the past, we had to rely on letters, phone calls, and fax machines to stay in touch with friends and family. Today, we can use email, instant messaging, and social media to communicate with people all over the world in real time.

Answer: The internet has had a major impact on the way we communicate. In the past, we had to rely on traditional methods of communication, such as letters, phone calls, and fax machines. Today, we can use a variety of online tools, such as email, instant messaging, and social media, to communicate with people all over the world in real time. This has made it easier and more convenient to stay in touch with friends and family, and it has also opened up new possibilities for business and education.

Task 3: Independent Speaking

Question: Discuss the pros and cons of social media.

Answer: Social media has both pros and cons. On the one hand, it can be a great way to stay connected with friends and family, share news and information, and learn new things. On the other hand, it can also be a source of distraction, cyberbullying, and fake news. It is important to be aware of the potential risks of social media and to use it in moderation.

Task 4: Integrated Speaking

Question: Explain the concept of global warming and its potential impact on the world.

Answer: Global warming is the gradual increase in the average temperature of the earth's atmosphere and oceans. It is caused by the release of greenhouse gases, such as carbon dioxide and methane, into the atmosphere. Global warming can have a number of negative impacts on the world, including rising sea levels, more extreme weather events, and changes in plant and animal life.
