Content of the Preptest 78

The Preptest 78 contains three full-length LSATs, each with 101 questions. The questions are divided into four sections: Logical Reasoning, Analytical Reasoning, Reading Comprehension, and Experimental. The Experimental

section is not scored and is used by LSAC to test new question types and formats. The other three sections are scored and account for your overall LSAT score.

The Logical Reasoning section contains 25 questions that test your ability to analyze arguments and draw inferences. The Analytical Reasoning section contains 25 questions that test your ability to analyze logical relationships and make deductions. The Reading Comprehension section contains 27 questions that test your ability to read and understand complex texts. The Experimental section contains 24 questions that may be from any of the three scored sections.

Structure of the Preptest 78

The Preptest 78 is administered in a timed format. You will have 35 minutes to complete each of the three scored sections and 30 minutes to complete the Experimental section. This is the same amount of time that you will have on the actual LSAT. It is important to practice taking the Preptest under timed conditions so that you can get used to the time constraints.

Difficulty Level of the Preptest 78

The difficulty level of the Preptest 78 is comparable to that of other recent Pretests. The Logical Reasoning section is generally considered to be the most difficult section, followed by the Analytical Reasoning and Reading Comprehension sections. The Experimental section is typically the easiest section. However, the difficulty level of any given Preptest can vary, so it is important to take multiple Pretests in order to get a good sense of the range of difficulty levels that you can expect on the actual LSAT.

How to Use the Preptest 78

The Preptest 78 is a valuable resource for LSAT preparation. Here are some tips on how to use it effectively:

- Take the Preptest under timed conditions. This will help you get used to the time constraints and improve your stamina.
- Review your answers carefully. Identify the questions that you got wrong and try to understand why you got them wrong.
- Use the Preptest to identify your strengths and weaknesses. This will help you focus your studies on the areas where you need the most improvement.
- Take multiple Pretests. This will help you get a good sense of the range of difficulty levels that you can expect on the actual LSAT.
